It's Time to Dabble with Live Streaming

By Conner Nuckols

It's no surprise that COVID 19 has thrown a monkey wrench into our production plans.

However, after a demonstration of live stream production, we have exciting news. The board of directors has decided to produce the Driftwoods first virtual show via Zoom.

Constellations, directed by Brad Duffy, is a spellbinding romantic journey, that begins with a simple encounter between a man and woman. But what happens next defies the boundaries of the world we think we know.

- **Driftwood Players Betty Butler Award**- Cheryle Sharpe, Kathy Underwood & Dannah Madden

Thank you to everyone who participated and gave their time to another successful season. We couldn't have done it without any of you!

continued from page 1.

Delving into the infinite possibilities of their relationship and raising questions about the difference between choice and destiny.

Constellations is a two man production starring Julayne Fleury and Casey Bronson.

If an All-Star cast with a local legend director wasn't enough, just wait until you see the light display.

Ben Hohman, Jeff Rockwell and Duffy have pulled out all the stops to create the light display with our new light system. The light display alone will be a spectacle patrons won't want to miss.

Performances are September 25, 26 and October 2, 3, 9, 10. Time TBD and tickets will be \$15 per household.

Grays Harbor PUD
"It's your PUD!"

Celebrating Clean Energy

Safety, reliability and affordability are all part of the Grays Harbor PUD's mission to our customers. The power provided by the PUD also fulfills a mission to our environment. The energy flowing from the Columbia and Snake River dams and the turbines of the Columbia generating station does so without emitting harmful carbon pollution into the air we breathe. Washington energy boasts a mix of affordability and cleanliness that is the envy of the entire country and a badge of honor for those who work to provide it to our customers. Add in the reliable, uninterrupted flow of that energy and some of the lowest electricity rates in the country and it's easy to see why Washingtonians can be proud of the grid that powers their homes and businesses.

Over 80 years of responsibility to our customers and our environment is just another way your Grays Harbor PUD works for you.
